1, 2.5, 5, 10, 20 & 208 Litres

## DIRECTIONS FOR USE:

Situation	Rate	Critical comments
Broadacre and boomspray	200 mL to 1 L/100L	Use the lower rate when using low application rate products. Under some environmental conditions, some pesticides or pesticide combinations may cause phytotoxicity to growing plants. Surfactant products like this products may increase the chance or the intensity of phytotoxicity. Use this product in a manner consistent with individual pesticide product recommendations. Some pesticides may require higher or lower rates for optimum effect. Follow all pesticide label directions when this occurs or monitor the spray and the effects and adjust the rate accordingly.
Aerial, CDA or ULV applications	200 mL to 2 L/100L	
Tree Crops (High volume)	100 to 200 mL/100L water	
Knapsack	10 to 20 mL/10L water	
Misting machine	1 to 2 L/ha	
Handgun	10 to 20mL /10L water	

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

## GENERAL INSTRUCTIONS

Exit is effective with both water soluble and water insoluble agrochemicals. It is designed to increase deposition and surface activity of herbicides, insecticides and fungicides on the target crop, which allows for greater absorption over time under different environmental conditions. Exit will not foam or clog nozzles.

## MIXING:

Fill spray tank half full with water and begin agitation. Add herbicides as directed by labelling and continue filling. Add Exit last and continue with filling

## COMPATIBILITY

EXIT is suitable for use with most herbicides, insecticides, fungicides and foliar fertilizers. Always check the label of the product to be mixed with EXIT before use.

## CROP SAFETY WARNING

Mixtures of EXIT with other products should be tested on a small area prior to large scale use.

## PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers, or waterways with the chemical or used container.

## **STORAGE & DISPOSAL**

Store in the closed, original container in a well ventilated area, as cool as possible. Do not store for prolonged periods in direct sunlight. Store in a locked room or place away from children, animals, food, feed stuffs, seed and fertilisers. **Combustible Liquid** : Store away from naked lights, heat sources and oxidising agents.

Spillage - In case of spillage, confine and absorb spilled product with absorbent material such as sand, clay or cat litter. Dispose of waste as indicated below or according to Australian Standard 2507 - Storage and Handling of Pesticides. Do NOT allow spilled product to enter sewers, drains, creeks or any other waterways.

Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point.

If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

**CONDITIONS OF SALE:** Agspec Australia Pty Ltd will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connections with the supply of these goods other than responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by Statutes applicable to the sale or supply of these goods. To the extent allowed by such Statutes the liability of Agspec Australia Pty Ltd is limited to the replacement of the goods or (at the option of Agspec Australia Pty Ltd) the refund of the price paid and where possible sufficient part of the goods to enable proper examination being returned to Agspec Australia Pty Ltd within thirty days of delivery.
